It would be for the whole party to say who would be leader, and further he could not now say. Dr. Milne devoted a large part of his speech to the Nakusp & Slocan railway, dwelling upon the allegation that for want of the official proclamation required by the act the whole transaction had been illegal. VICTORIA'S GOOD LACROSSE.

Secures Two Well-Deserved Wins at Vancouver's Dominion Day Celebration.

Senior Honors Will Now Depend on the Next Match-Results in the East.

It is now piper's news that the Victori acrosse team worthily sustained their repu tation in the game which formed the great attraction of the Dominion Day celebration at Vancouver on Monday, for the COLON IST'S holiday bulletins were displayed im mediately after the match, announcing the gratifying result. The event drew a crowd of spectators, possibly the largest ever as sembled on the Brockton point grounds, and the general verdict is that it was a credit to all the perticipants. The game was thor-oughly well contested, as the score shows, and though the Victoria boys appeared to decidedly better advantage than their for-midable opponents, the latter stuck to their work so pluckly that the out come was not at all too sure in the minds of the many Victorians who were the prond witnesses of the team's deserved victory. This senior match was played after the junior event in which the Stars from this city had set so excellent an example. The officials, whese duties were lightened by the exemplary manner in which the play was conducted, were J. M. Bwell, of Varcouver, and Major W. J. Quinlan, of Victoria, as unpires, and J. General Approval.

There was a good attendance of the electors of Victoria West in Fairall's hall, Victoria West, last night to hear the government ca adidates speak, and all through the evening the greatest enthusiasm prevailed, the speakers being warmly received and greeted with rousing cheers.

Mr. R. J. Russell having been voted chair, opened the proceedings by hoping that Meesrs. Turner, Rithet, Helmcken and Braden, who were there to address the electors of Victoria West, would on July 7 e successful at the polls. (Applause.)

Reached by the N. V. C. Co. Minors The "Thirty Days' Notice" Endorsed.

Division of Labor for the Benefit of Northfield-Business-Like Arguments.

NANAIMO, July 3.-(Special)-The result of yesterday's proceedings at the mass meeting of the underground employes of the New Vancouver Coal Company was satisfactory alike to the men and to the management, and consequently to the community at large.

By an overwhelming majority the men decided to abide by the agreement existing between the union and the company, and to give the 30 days notice asked for by Supergive the 30 days holde asked for by Super-intendent Robins. In addition the men of No. 1 unanimously agree to share their work with the Northfield miners. The pro-ceedings throughout were carried on in an orderly, business-like manner, characteristic of the previous of the apployue of the N

ceedings throughout were carried on in an orderly, businces-like manner, oharacteristic of the meetings of the employes of the N.V. C.Co. The various questions were fully and freely discussed, but it was the appar-ent wish of every speaker to do or say noth-ing that was unfair, or that would in any way tend to lessen the existing harmony be-tween employer and employed. T. Dawson presided, and when he called the meeting to order at 10 o'clock fully say hundred miners must have been gathered together on the green. The chairman briefly requested the men to confine them-selves strictly to a discussion of the matter in hand, which was whether or not they should give the thirty days' notice of their demand for a return to the old district prices. He pointed out that the agreement between the union and the company called for this notice. He, personally, did not al-together favor the clause making the thirty days' notice compulsory; but as it existed and had not been rescinded, he did not see that as honorable men they could do other-wise than abide by it. A motion that the required notice ba

wise than abide by it. A motion that the required notice be A motion that the required notice be given was made and seconded immediately. Before a vote was taken consider-able discussion ensued. The greater num-ber of the speakers advocated com-pliance with the agreement on the grounds that any breach of it on their part meant the dissolution of the union. Some of the Northfield men urged that as Mr. Robins had himself on one 'occasion acted contrary to the agreement they were not bound to abide by it. Their argu-ments, however, were shown to be incorrect, as on the occasion instanced the men them-selves had voluntarily agreed to the superin

not bound to abide by it. Their argu-ments, however, were shown to be incorrect, as on the occasion instanced the men them-selves had voluntarily agreed to the superin-tendent acting as he had done. Several of the prominent men among the minuers, in-cluding Thos. Keith, R. Boch and Tully Boyce, addressed the meeting at length. Mr. Keith pointed out that Mr. Robins had not promised to grant the advance, nor had he declared definitely what he intended doing, but he had said that if compelled to follow the course prescribed by Friday's meeting he would close down the Northfield and No 5 minus and materially lassen the output of No. 1. Mr. Keith asked the men not to harp upon what had happened in the past. If the agreement had been broken in days gone by it was no excuss for them not acting up to it on the present occasion. He believed and felt sure that the great number of those present were with him that the agreement should be adhered to strictly. Should hey not do so, their boastful unionism would be de-stroy: d and what was regarded as the most in fluential labor organization in British Col-umbia would be proved useless. He also urged the town men to consider their own position carefully before taking any decided steps in what: they might deem the direction most beneficial to the Northfield mon, with whose hardships they all sympathized sin-cerely. They must decide whether they would be best able to help them by taking an arbitrary course or by fair measures. Mr. R. Booth alluded to the many advan-tages they had reaped by meane of this very agreement. He said plainly that if they on their part took any unfair advantage, they must reasonably expect the company to re-taliste. He spoke at some length of the condition of the miners on Vancouver Island claiming that it was only by maintaining loyal organization that they could ever hope or eract to obtain and keep the rights they considered theirs. He earnestly appealed to the men to maintain the agreement and to do nothing rashly.

do nothing rushly. Mr. Tully Boyce expressed the opinion Mr. Tully Boyce expressed the opinion that what was really needed at the present time was some arrangement by which the men of No 5 and Northfield might obtain a larger share of work. He did not consider the question of the 10 per cent. advance as being of anything like as great importance as the equalization cf work. With regard to the agreement, he claimed that the day it was annulled would see the end of the union, and this was a state of affairs in his opinion most undesirable. He did not want to work anywhere outside of a proper organization. In conclusion he declared plainly that they must abide by the agree-ment.

On a secret ballot being taken the vote re-

On a secret ballot being taken the vote re-sulted in 333 for and 129 against. The executive committee was then in-structed to notify Mr. Robins that the thirty days' notice would be given, and to request him to do what he could to equalize work for the benefit of the No. 5 and Northfield

The school during the past schol-astic year was taught by Mr. S. B. Camp-bell and Mr. Samuel Moore, B.A. One of the encolled pupils, Miss Ethel G. Wardle, who wrote on the examination in New West-minstor, passed successfully for entrance to a high school. Hope school is one of the pioneer schools of the province, as its organization dates back to 1871. The number of pupils en-rolled on the register during the year was 34. The roll of honor for the year is as follows: Deportment, John Georze Corrigan; regu-larity and punctuality, Miss Hope Wardle, and proficiency, Samuel John Ryder. At the annual school meeting for the elec-tion of trustee, Mr. John H. Bears was re-elected on the 30th ultime.

Galiano Island.

Gallano Island. GALIANO ISLAND, Jaly 2.—(Special.)— The semi-annual school (examination on Gal-iano island was hold on Friday last, when Trustees Winstanley, Groth and Grubb and a number of friends were present. The schol-ors are making great progress and a good showing is being made. Mr. D. Gallant, the teacher, has taken a great interest in the educational advancement of the children, and the total average daily attendance throughout the year speaks well for the dis-trict. Through the generosity of many friends, prizes were given to each of the scholars. At the annual school meeting in the Galiano distrect, held on Saturday, Mr. E. Winstanley was re elected trustee and sec-retary to the Board.

Plumper Pass. PLUMPER PASS, July 2.-- (Special)-The closing exercises of the Mayne Island public school were held on Thursday morning, un-usual interest being taken in the proceed-ings, the seating capacity being barely suffi-cient to accommodate the number of friends who attended. The trustees were also preslings, the seating capacity being barely suffi-cient to accommodate the number of friends who attended. The trustces were also pres-ent. The schoolhouse was prettily decorat-ed, and the desks and windows were lined with bouquest of roses, giving a very at-tractive effect. Under the tuition of Mr. J. W. Sinclair, the children are receiving a thorough education and the parents express themselves as delighted with the progress made. Through the kindness of friends, prizes were distributed to the most success-ful scholars, a special prize for the best com-position on "Mayne Island" being awarded to Miss Eliza Robson, who, in a well-written essay, described the place as a most desirable apot for a summer resort, concluding with the remark that Mayne Island is not only noted for its strabueries and cream, but for its very pretty girls. Another aspirant for the prize wrote that coal was said to exist on the island, but if the set-tlers were to wait until it was got out they would probably spend a cold winter. Mr. Wm. Robson, J.P., and Mr. Wm. Deacon addressed words of oncouragement to the children, Trustee Macklin compli-menting the teacher on the excellent show-ing made by the scholars and the interest taken by him in his work, after which the singing of the National Anthern brought to a close one of the most successful examina-tions ever held in connection with the school.

a close one of the most successful examina-tions ever held in connection with the school. The annual school meeting of the electors in the Mayne Island district was held on Saturday, when Mr. Wm. Deacon was elected trustee to fill the vacancy caused by the death of Mr. J. T. Bodine, and Mr. H. Macklin was re-elected secretary to the board. Tenders are now invited, receivable up to noon of Monday the I6th inst., for the con-struction of a now school house on Mayne Island.

Metchosin.

Metchosin. The public examination of Metchosin school was held June 29, the result of the examination being very satisfactory to the parents and visitors and reflecting great credit upon Mr Dawson Elliott, the teacher. The rolls of honor were presented by a visi-tor from San Francisco, Mr. S. J. D. Lee, to Frank Pears, for regularity and punctuality; Lee Llewellyn Field, for deportment ; and Charles Whitelaw, for proficiency. This latter student, together with C. Helgesen, recontly passed the High school entrance ex-amination.

recently passed the figure solution databases amination. The spelling match was won by C. Helge-sen. The recitations were well chosen and rondered, and the priz, given by Mr. El-liott, was awarded by a committee to Miss Annie Duke. After the national anthem had been sung the children indulged in the neual games and then proceeded to the hall, where a bountiful repast provided by the ladies of Metchosin concluded a very pleas-ant day.

election, 1 wish to place my views on some of the questions commanding your attontion, as well as to intimate the line of action which I shall take and the measures which I shall, if opportunity permits, support and maintain. The p.rity now in power have nucleally held office for over eleven years. Their policy has requiring consideron on may vortice questions prequiring consideron on may vortice questions requiring consideron on may vortice questions the intervention of the questions able to make some important changes. The privilego of allowing speculators and non residents to take up large tracts of hand has been taken away and the lands are now available for actual settlers. By the efforts of the Opposition the assess-ment of wild land has been much improved; in to the order the order of the order of the addition of the order of the order of the assess-ment of wild land has been much improved; in to theored principle of assessment accord: In the rear two essential much lands are now available for actuers. Monopolies of any kind are to be deplored at monopolies backed by Government aid and bat monopolies backed by Government aid and support are often the most difficult to over-cove. Government aid to such an oxtent as has been given in the instances referred to precludes other roads from being assisted or publit. As an instance of this we reconcise the The occur given in the mean being assisted or pulit. As an instance of this we recognize the illiculy the British Pacific Railway will have in dealing with the Esquinnal's Wanning Rail-way and the existing rights. Thus by the action of the preserver meant in the past it looks the preserver mean in the past it looks at the another was the merror of ring-sters and monopolisits as the merror of ring-sters and monopolisit was the merror of the preserver was a start of the past people of their heritage. I am opposed to the executive using its power to make large appropriations of money by people works, without first submitting such to the legislature. Such a course of action leads to favoritism and corruption and is not in ac-ord with the principles of constitutional gov-ernment.

The practice followed on the eve of a general election of promising aid to public works and institutions by members of the ext cutiveshould be condemned, as it is attempting to bribe the electors with their own money. The indeg rad-ent electors should answer this by sending men to the Legislature who will do their utmost to removo such minicters from power. Full Details of How the Popular "Irving" Met Destruc-tion The Machinery Will Be Saved – U. S. S. "Grant" Visits

Victoria.

NEW WESTMINSTER, July 3.- (Special.)-The loss of the five steamer Irving on Satur-day created a sensation in Westminster. The steamer Rithet broke her shaft on Thursday last at Maria Slough, and the Irving, which was at Cat's Landing loading freight and cattle, made a stop at the slough on the down trip Saturday to bring the disabled vessel to port. The steamers were lashed together and started down stream; all went well until 2 o'olock, when opposite Fart's Bluff the current swept the heads of the vessels around, rendering them unman-ageable. Befors anything could be done to avoid disaster the bow of the Irving crashed fair on the rocky bluff. The force of the contact was immense and for a moment the crashing of the timbers created a panicky feeling among those aboard, many of whom jumped to the Rithet (Commodore Irving, who was at the wheel, promptly gave orders to cut away the Rithet, fearing that the Irving might sink and draw the other vessel down. When re-leased, the Rithet was carried down about 60 yards and struck the bluff, crushing in her hows bolow the water line. Then she swang clear and flated down stream some (500 or 700 yards, where she anchored. The Irving gut clear at the same time and was flated down stream in a sinking condition in a same position, a complete wreck. The Tranefer was in Maria slough at the time and soon after arrived on the scene. The cattle and freight on board the Irving were taken ashore and forwarded to their destination by rall. The furniture was also removed from the vessel, and when the water in the river lowers it is expected most of the machinery will be saved. The Irving was built tweive years ago at a cost of \$75,0000, but can be replaced now at half that sum. She was the largest and most comfortable of the river steamers, and a great favorite with the travelling public. There was no insurance on the vessel. THE OPPOSITION MEETING.

The meeting in the interests of the Oppo sition held in Victoria West last evening appears to have been only remarkable for the number of glaringly false statements contained in the addresses of the candidates, in the comfortable assurance that their untruthfulness could not be immediately exposed, as no opportunity to speak was to be afforded anyone favoring the Government. Mr. Dutton, in seek-ing to use as a weapon against Mr. Rithet the employment so considerately found by him for a number of workingmen during the distress of last winter, further misrepresented the facts, and meanly cast a slur upon the quality of the meal which Mr. Rithet generously provided for the workmen. He falsely stated Mr. Turner's position with regard to the Chinese in the canneries : and he libelled the Lands and Works department in the allegation that dishonorable advantage is taken of information conveyed by intending pre-emptors. Dr. Milne, how ever, of whom something better might have been expected, even more grossly violated the truth. Ignoring the finding of the Royal Commission, before which he had not the courage to go with any representations whatever, he juggled the Nakusp & Slocan figures in the attempt to show that the plan now being carried out, and plainly proved to be the cheaper, is in reality dearer than that for which it was so wisely sub-stituted. He represented the money spent in excess of the appropriations or roads, streets and bridges as recklessly equandered, while there is not any evidence whatever that a dollar of the amount was misapplied; and he sought to create the impression that the House had no opportunity of pronouncing upon the expenditure, while the fact is that it was expressly sanctioned after the explanations made by the Government at the ensuing ses-sion. His most remarkable use of suppression of the truth, however, was in relation to the \$600,000 loan, which he compared with the recent loan effected by the city of Victoria without the explanation which honesty and truth required, that in one case the interest offered was 3 per cent. and in the other 41 He scemingly trusted that his audience would not be sufficiently familiar with the details of float-ing loans to know that, both the borrowers being of sound reputation finan cially, the rate of interest offered had everything to do with the price obtained. By covert insinuation, so baseless that it is almost foolish to give it circulation, he sought to create the impression that the stockbroking house with which the son of the Agent General is connected had been unduly favored in the handling of the loans. When the Opposition speakers are bold enough to so flagrantly violate the truth on public platforms when no immediate reply is expected, what must be the nature of the

Duttonare appended to this impudent forgery We expect to see a repudiation of the hand bill from these candidates, who are supposed to be honest men. Their names are cer tainly used to give the impression that the hand-bill is printed not only with their sanction but under their authority.

NOBODY TO VOTE FOR.

We are not surprised to find that shought. ful and well-disposed men of the late Opposition deplore the want of good men among those who have undertaken to lead the Opposition to the present Government. There is not among these latter a single man of any experience in the conduct of public affairs, or of even fair natural ability. The new men have repudiated the Hon. Mr. Beaver, and to tell the truth, he has given evidence that he has outstayed his time in the political arena. As for Mr. F. C. Cotton, it would be the mereat folly to trust him if his abilities were far greater than they appear to be. As for the other men who are ambitious to represent the people, not one of them has given evidence that he has any of the qualities that an eminent public man should possess, and many of them have shown very clearly that so far from being competent to lead, they are not fit intelligently and prudently to follow a leader. Let any man of intelligence go over the whole roll of Opposition candidates, and he will find that we have rather understated than overstated the unpleasant and unwel-

come truth. When enquiry is made, it will be found that the sensible and experienced men even of the Opposition have no faith in persons who have placed themselves at the head of their party. They regard many of them as presumptuous blockheads and ignoramuses whose ambition is very far indeed ahead of their ability. So far from feeling proud of them and being glad that an opportunity has been afforded them to vote for them they feel humilisted to think that such men have forced themselves to the front rank of their party, and they are ashamed to admit that the party feeling is strong enough to prevail upon them to vote for them. If some of the Opposition candidates knew what the men of their own party think of them and say about them they would not, if they had the least spirit, feel proud that they are candidates for legislative honors. Yet it is these men of whom many of their own party are ashamed who predict that they are going to sweep the Province. They cannot believe what they say. They are not so hopelessly stupid as not to see how they are regarded by the men of their own party and they are not so infatuated as to believe that men who despise them and have no faith in them will cast

their ballots for them on election day.

THE OPPOSITION'S POLICY.

The Opposition have no policy so far as the management of the affairs of the Province is concerned except a very feeble imi-tation of the policy of the present Government. 'But they have a well pronounced policy if the conduct of the election campaign. It is a policy of falsehood and trickery, their organs lie about everything and resort to all kinds of shabby tricks to win votes. win votes. So addicted are they to falsehood that it is not safe to believe a single statement that appears in the Opposition newspapers relative to the doings and the sayings of politicians and the political condition of the Province. It seems impossible for any of them to give a true version of what happens at public meetings. One of them invents and publishes a falsehood, and all the others copy it as if it were well-established truth. That a lie is an impossible one gives the inventor and publisher of it no concern at all. If it involves the reading of a man's thoughts and the knowing of his intentions it is published with as much confidence as if it were a statement of facts readily discernible and easily proved. The News Advertiser, which now competes in false hood with the Westminster Columbian, in its issue of July 2, says : " The tour which the Minister of Finance, Mr. Turner, has just concluded through several of the con stituencies on the Lower Fraser, has destroyed any lingering hope that he may have had when he came up from Victoria of the Government's being sustained by the people." How could the News-Advertiser tell what hopes Mr. Turner entertained of the Government being sustained by the people? How can it by any possibility find out whether or not they have been statements they make in private? destroyed. Yet the News Advertiser makes positive assertions as to what can A FORGERY. A FORGERY. The Victoria team made a geod record though they failed to systure one of the first positions which they expected. The wet test was won by the Vancouver team by 4 seconds, Victoria, Whatcom and Nanaimo coming behind ia the order named. Van-couver again won in the dry test by a frac-tion of a second, with Victoria second, Na-naimo third and What on last. The Vic-toria team was shat out of the hub and hub race by a misunderstanding. The arrange-ment was that if the gun snapped there should be no start. This is just what hap-pened, and the Victoria team, waiting for a proper start, had the pleasure of seeing the other teams allowed to run it out and the race given to Vancouver, Nanaimo second. The coupling test was won by W. Dessy, who beat T. Lilly, of Vancouver, by 11 seconds.

The "Empress of China," Completes a Pleasant Voyage-Did Not Visit Hongkong. The R.M.S. Empress of China, Captain Archibald, arrived from Yokomann. last ovening, completing what her officure unite in pronouncing the most delightful voyage on record. She did not visit Hongkong at all, on account of the prevalence of the plague there, and she brought no steerage passengers, for the same reason. Though filled to her capacity with valuable eargo, the ship was not as deep in the water as usual, the freight being principally new sea-son's tea, and consequently light in weight. The distribution of cargo was given in the Cotonsr several days sgo. In the sloen the Empress had a full list of passengers, who unite in voting the trip delightful in every detail—save, of course, the delay of fourteen hours at Nagaski, thanks to the strict quarantine regulations now prevailing. Among the notable pas-sengers disembarking here was Dr. Opper, a linguist of considerable note, who has for the past twenty years been a resident of Madras; his knowledge of the many languages spoken throughout India cannot, it is said, be surpassed. He is now returning home to Germany having been relieved from duty, and on large pension. The Doctor somewhat regrets arriving in America at a time when many of the universities are clocaed for the summer, as he is anxious to gain information, by visiting them, as to their working. Gossip.

After their defeat at the hands of the Vancouver Cricket Club, the Victoria team journeyed to Westminster on Monday morn-ing and succeeded in winning by an innings and one run. Hon. Mr. Pooley winning the toss decided to bat, and started with himself and Little. With the score at 5, he was unfortunately howled off his pads by A. Malins. Clinton clean bowled Little and Smith, and things bogan to look bad till Wallis joined Foulkes. These two stopped the ''rot'' and after the former had been disposed of for a useful 22, Morley assisted in carrying the score up to 101, when Foulkes was beaten by a fast ball from Woods. He had made 44 in excellent shape and with Morley's 31 was certainly the best cricket shown during the trip. Ward scored a useful 17 and the innings closed for 141. Westminster commenced with Clinton and Ransom, and made a most disastrous start. In the first four overs Wallis clean bowled Clinton, Ransom, E. Malins and Lafroy, whilst Goward succeeded in dis-turbing the Rav. Woods' stumpa. Wallis had an analysis of 4 wickets for 1 run up to this, buton A. M. Malins and E. Pow-er joined Malins and by very free hixting took the score to 72, when he was bowled by Morley. The innings eventually closed for 79, and being more than 60 runs behind had to follow on. In the second jinnings Wallis was in five form with the balland took 7 wickets for 27 runs, and the innings realized 61 runs, one more wanted to save a single innings defeat. The Victoria bowling was very strong in both innings, Goward and Morley being in good form, and the analysis will show that Wallis was on the spot. The following is the score :

ALBIONS VS. AN ELEVEN OF THE	VIC	TOR	IA
CLUB.			

ALBIONS VS. AN ELEVEN OF THE VICTORIA CLUB. This match was played on the Albion grounds Monday, resulting in an easy vic-tory for the Albions by 105 runs. Captain Worden winning the toss decided to end his team to bat first, Frost and Worden facing the bowling of Wolley and Crabbe. The venture began badly, 3 wickets being taken for Sruns, H. Martin improved mat-ters by making 11. Swinerton joined Schwengers and a decided stand was made, bowler after bowler being changed without effect. At last Swinerton was taken in the slips, having played well for his 19 runs Green followed next and after making 7 was bowled by Perry. With the score at 92 Schwengers returned one to Wolley having made 36 by careful and patient play. J. E. Martin and Hewitt made a good stand for the last wicket, both batsmen hitting vigorously, until the former was taken by Dr. Helmoken for 22, Hewitt being not out 14 The eleven of Victoria C. C. now went in with a rather formidable task before them, but within h if an hour they were all dis-missed by the splendid bowling of Anderson and Howard ior the small total 6: 23. Hav-ing to follow on they lost 5 wickets for 24 runs, when time was called. A WIN FOR THE FLAGSHIP.

The Annual Reports Take a Whole Day's Consideration-Fraser River Dyking. The council of the Board of trade met yesterday forenoon, the principal business before them being the consideration of the annual reports to be presented ou Friday to the annual general meeting of the Board. D. Robson, secretary of the Fraser Valley relied committee, wrote enclosing the reso-lution passed at Westminster on June 12, to the effect "that the Dominion govern-mont should undertake the establishing of a thorough and permanent system of dyk-ing, with such assistance as the Provincial government may be able to give." The resolution was endorsed, a copy to be sent to the city's representatives at Ottawa. A communication was received from agent general H. C. Beeton, Lundon, stat-ing that it having been brought to his at-tention in May that 7,500 cases of salmon then on passage from San Francisco by ship Springburn hadbeen labelledas ' Fraser river salmon'' whereas the fish were caught and canned at Point Roberts in the State of Washington, be had officially represented to the English Customs Commissioner that the labeling was contrary to the merchandies mark act and detrimental to the Fraser river salmon industry and asked that the labeling was contrary to the merchandies mark act and detrimental to the Fraser river salmon industry and asked that the labels be removed from the tins before the goods were permitted to leave the docks. The action of the agent general was en-dorsed and an acknowledgment ordered to be sent thanking him for his promptness and vigilance.

race, Bradley, of Victoria, (25 yards handi-cap), winning, with Coldwell second. Time -1.15. In the one mile novice race, Franklyn beat Walton and Coldwell, in 2.41.4.5. In the quarter mile, flying start, Perkine made a track record, covering the distance in 32 2.5; J. Deeming second. In all the succeeding races, J. Deeming, Perkins and Staver either did not start or finished with the field. It is claimed by some that they were handicapped out of the races, but Perkins did not complain of this. His excuse was that he was trained fin and the sudden shock of seeing his friend Staver smr. hed up, "queered" him for the other events and made him lose heart. Deeming claims he was ill or over-trained. The handicaps were much less than those of the last meet, that the visitors had previously easily overcome. In the one mile event, Victoria's plucky rider Bradley (with 60 yards handicap from Perkins) left the Orgon racer 20 yards be-hind and led the field in, finishing in 2.343. with Deane a good second. In the two mile handicap, Dean (180 yards start on J. Deeming) won in 5 164; Walton second. In the three mile race, A. Deem-ing (with 150 yards start from Perkins) won after a desperate struggle with Barker, by a wheel, in 8019. In the five mile race, Coldwell, who has apparently crept into no ice in a single day, won from a big field with 440 yerds start from J. Deeming; Dean (400 yards) second. Time.-13 51. Great things are prophesied for the Vic-toria flyer Bradley [As he rode in in the one mile struggle he was loudly cheered from the grand stand. He isyoung, strong, light and full of promise. In both matters Dr. Foster's suggestions had been anticipated by the gov-ernment, orders having been given June 4 to construct a ferry at once. The drafts of the annual reports took up the attention of the board for the remainder of the day.

TIME SCHEDULE.

Is the centre for the Silver-Lead Mining Industry of the famous Slocan Region, which is now sending \$75,000 worth of Ore to Kaslo per week for shipment to the American smelters.

The right of way for the Kaslo-Slocan Railway has been cleared, and the bridge foundations have been put in place, so that the work of grading and track-laying may proceed at the earliest possible moment after the snow disappears

The Kaslo-Slocan Region has many mines which, even at the present low price of silver, bring a return of \$100 to the ton. Mining men from all parts of the world say that it is the richest silver district known. The progress of development work in the mines verifies this statement.

Thousands of men will be employed in these mines. The natural base of To take effect at 8.00a,m.on Friday, Apr 27th supplies is Kaslo, which is admirably adapted for the purpose, being a beautiful townsite, situated on a bay possessing excellent shipping advantages.

The growth of Kaslo last year was very considerable. It is now an incorporated town, having a population of 2,000 people. That this population will be doubled before the end of the present year is unquestioned.

Kaslo offers to investors a most promising field. The opening up of the mines tributary to it must build up Kaslo. The development of these mines is now in progress. Many others will be worked as soon as easily accessible. An investment in a Kaslo lot and in improving the same will bring good results. .

The Kaslo-Kootenay Land Co. control the original townsite. They are offering all property at reasonable prices and upon easy terms of payment. All inquiries for particulars will be promptly and fully answered.

toria Wheelmen has been postponed until next Tuesday. The Victoria Gun Club held a special meeting last evening to complete arrango-ments for the annual hunters' picnic. The Wandercre will play Blackbura, Hock, Dakers, McCann and Peden in to-day'ş football game at the Caledonian picnic. TO PLAY SOUND CITIES. The Amity baseball team left for the Sound yesterday m rning by the steamer Rosalie with a somewhat large contract on hand, but from the excellent quality of their play against Stanford University, a good account will no doubt be rendered by Vio-toria's crack team. This morning they play the famous Seattle Athletic club and in the afternoon they journey to Tacorca to join issue with the baseball team of that city. The Amity team is : Lonfesty, piteber; Smith, catcher; Partridge, first base; Widdowson, second base; W. Wrigelsworth, third base; Franklyn, short stop; Schultz, left field; Gowen, centre field, and Gouge, right field. THE WHEFL BOARD OF TRADE COUNCIL. THE WHEEL BRADLEY A WINNER. VANOUVER, July 3.-(Special) – Five thousand people passed through the gates at Brockton Point to-day, the marines, sali-ors and officers of the warships turned out in full force. The bicycle events were in-terspersed with keenly contested sports from the men-of-war, the rollicking good nature of the juck-tars winning everybody into the same mood. The fun followed fast and fur'ous, and the flyers of the cinder path were putting up splendid races until the half-mile handicsp event, when a serious chapter of accidents rather modified the hilarity of the pleasure seekers. In the start Albert Deeming fell and broke his wheel. In the backstreth Par-ker and Walton collided and fell heavily, and at the finish of the first quarter, Staver, of Spokane, and Milne, of Vancouver, came together and got badly tangled up. Both riders were pulted out of the wrecked wheels, with broken collar-bones and badly brusied. This left but three or four in the race, Bradley, of Victoria, (25 yards handi-csp), winning, with Coldwell second. Time 1.15. In the one mile novice race, Franklyn beat Walton and Coldwell. in 2.414 5

Were present. Mr. James Heggart presided, and said that he was pleased to see so many present to do honor to their old manager. His ex-ample could be well and profitably followed by the younger element of Wellington. He (the chairman) had known Mr. Bryden a great number of years, and all who worked under him knew him to be affable, courtcous, kind and just. His punctuality and high sense of dary were unexcelled. The chair-man declared that general and sincere ro-gret was foit at the fact of Mr. Bryden re-signing his position as manager of the Wel-lington collieries. A short programme which had been pre-pared for the occasion was then entered upon, the first number being an overture, "Rubicon," by the Wellington silver cornet band. Considering the short time the above organiz ation has been in existence, the over-ture was given in a creditable and effective manner. "Unst We Part?" was sung with so

Must We Part?" was sound and effective manner. "Must We Part?" was sung with so much taste and feeling by Mrs. Butler that she had to respond to an enthusiastic en-core. Mr. Greaves' rendition of "The White Squall" was admirable, and he was followed by the old-time Wellington favor-ite, Mr. John Thomas, who in his usual effective manner sang "Kathleen." A piano solo by Mrs. Barber was the next number, and the style in which it was given and the hearty applause with which it was received proved that Mrs. Barber is a valu-able addition to the musical ability of Wel-lington. The duet, "A. B. C.," by Miss Matthews and Prof. Barber was a decided success, and was repeated in response to a hearty und deserved encore. Mrs. Johnson next gave a recitation, "John Maynard," which was very favorably received. The last, but by no means the least item on the programme, was Master Tom Stephenson's pathetic rendering of "Mother's Last Words," which called forth a storm of applause, to which he responded by singing in an equally affective manner, "A Soldier and a Man." After the musical ability for the server.

by singling in all tiquary subsetive mainler, "A Soldier and a Man." After the musical part, Mr. James Reif, who was called upon to make the presenta-tion, said that he had known and worked under Mr. Bryden for thirty-two years, and during all that time he had not uttered one unkind word to him. John Bryden, he declared, was true and juet; what he promised he would, if possible, perform. Mr. James McIntosh addressed the meet-ing in a few brief words. He had, he thought, worked under Mr. Bryden nearly as long as any one present, and he knew him to be courteous, kind and just. The deepest regret was fels at his departure.

Mr. Bryden on rising to reply, said that on this occasion words failed him. He was unable to express his heartfelt thanks for the expressions of esteem. It was with great regret that he was leaving, but he hoped to be amongst his Wellington friends occasionally to renew the acquaintanceshi He hoped that the agreeable and con-siderate relations which now exist between the meloyer nod employed here would be continued. ROCK CREEK, East Yale, June 26. (Special)-A meeting called by Mr. Donald Graham in the interests of the Opposition was held here yesterday evening, Mr. Graham being accorded a patient hearing, Graham being accorded a patient hearing, during the course of a speech last-ing upwards of an hour and a half, in which the principal topics touched on were the erection of the new provincial buildings at Victoria and the Kaslo and Shuswap & Okanagan railways, and the assistance by which their construction had been secured. Mr. Rabbit followed, going over much the same ground as the province speaker, and

remarks-which, however, these presence were not. On a show of hands being asked for, "tall those who were in favor of the opposition policy," only one hand holding a vote was s'owly raised as if the owner did not know whether or not he was making a mistake. A second show of hands, all those in favor of the present government, brought the whole audience to its feet, the electors being heartily glad to avail themselves of the op-portunity to express their feelings. Thus ended a meeting of complete and utter failure to the opposition cause and policy-which latter seems to be principally made up of a collection of insignificant per-sonal grievances.

A SURPRISE.

The Nakusp Meeting Gives a True Insight Into Mr. Brown's Ques-tionable Tactics.

Mr. Kellie's Admirable Presentation of the Government's Policy-His Rousing Reception.

(From the Nakusp Ledge.) The joint political meeting in the schoolhouse resulted in a surprise in more ways than one. Firstly, because the citizens of Nakusp were given a true insight into the very questionable tactics Mr. Brown is resorting to to carry the election ; secondly, because of the vastly superior ability dis-played by Mr. Kellie in his presentation of the government's policy, and the tactical shrewdness exemplified in his handling of the governments princy, and the there herewdness exemplified in his handling of his opponent : and thirdly, because of the undenced feeling manifested by the andience in favor of Hon. Mr. Davie. Mr. Brown, rather than expatiate upon the policy of the opposition, descend-ed to personalities—a contemptible proceed-ing at any and all times. His insinuations that Mr. Kellie had immediately profited by the expenditures on trails in this district and his assertions that public monies had been recklessly frittered away, met with a flat contradiction and a challenge to proof. This Mr. Brown did not vouchesfe, nor could he; but, notwithstanding these de-tails from his opponent, the opposition can-didate harped away thereon in a truly painfal manner. Mr. Kellie dealt with the questions of the day in a manner that elicited frequent bursts of applause from his hearers, and held up his rival in an uneaviable light, both for his decidedly neg-ative occupation of a seat in the legislature under Hon. Mr. Beaven's administration uneaviable light, both for his decidedly neg-ative occupation of a seat in the legislature under Hon. Mr. Beaven's administration and the trivial gossip he is reiterating to sway public opinion. The meeting termina-ated with rousing cheers for Hon. Mr. Davie's government—an emphatic demon-stration of Mr. Kellie's popularity, and a positive indication to Mr. Brown, if, in-deed, he required it, that his hopes of sup-port in Nakusp never had any foundation,

of the roads throughout the larger island of the district, and urging the assistance of the farmer by the Government to a greater extent than in the past, holding that the farmer doess more for the upbuilding and sup-port of the country than do the railways, and should therefore receive as much or more Government aid. His address was in marked contrast to his earlier. platform ut-terances during the campaign, by reason of its moderation; it is ovident he has begun to appreciate the fact that nothing is gained and much lost by the wholesale denuncia-tion and maligung of opponents, his first course on entering the field. Mr. J. P. Booth referred in opening, to the desirable change in his opponent's method of attack, and congratulated him upon having learned the value of moderation. He then proceeded by clear and forceful argument, based on the substantial founda-tion of fact and elways to catch votes He then proceeded to show what the liberal policy of the government had already accompliabed for the district and the province, and outlined the further advantage which might reasonably be looked for from a continuance of this broad and progessive policy. Mr. Booth having resumed his seat,

In the matter of railways the Liberal policy

have held office british Columba has have more substantial progress than ever before. In the matter of railways the Liberal policy of the government has made possible the building of railways, which will help along the development of the resources of the pro-vince. During the life of this administration the annual expenditure on public works has been more than doubled, yet the taxes have not been increased. Under the present Minister of Finance the credit of the prov-ince has been improved, until now it stands foremost among colonial securities. The opposition candidates in their election addresses, and members in the house, have dealt only in generalities. They advocate economy, but offered no important amend-ments to the estimates when under discus-sion, nor have pointed out where they would cut down, if elected to office. The opposi-tion have relied only on criticiam and fault-finding, and local or personal prejudices to tacth votes. They ask the electors to reject the present government, while they have nothing tangible to substitute in its place, which would likely prove of more advantage to the province. Were there any proba-bility of the opposition succeeding in the campaign, the situation would be a critical one for the province. Every elector by voting for the Opposition candidates, says, in effect, that he is willing to place the affairs of the province in this party, without a policy, without a member expable of being a leader, and without mem-bers of ability sufficient to fill the cabinet positions. The welfare of North Yale and of the province will be maintained and for-warded by the return of the present gov-ernment and Mr. Martin, an independent supporter of the present government. He has always used his best efforts in the in-terests of this riding, and with zood suc-ces, as the results testify. We cannot see where eity, riding, or province would have anything to gain by the election of Mr.;Mc-Cutcheon, the Opposition candidate, but on the contrary much to lose in his election.

CAMPAIGN NOTES.

Meetings Held and To Be Held Throughout the Province.

There was a rousing meeting at Kam-loops on the evening of June 30, at which the chief speakers were Premier Davie and Mr. George B. Martin, and over which Mr. Slater presided. Mr. Hugh McCutcheon, Mr. C. A. Semlin and Mr. W. J. Bowser, the latter of Vancouver, were the oppnisition orators. Hon. Mr. Davie's review of the policy of the government and its practical results was, of course, the feature of the evening.

The Sentinel (Kamloops) says : A politi-cal meeting in Mr. H. McGutcheon's inter-est was held in the North Thompson school-house on Thursday alternoon. Ma. T. Roadley presided. Mr. McGutcheon and Mr. Martin spoke, both being satisfied with the results. Nomination day in East Yale has been fixed for July 4 (to-day), the election day being July 18. The opposition candidates in the city are to hold a public meeting at Philharmonic hall Friday evening, when also Capt. Rob-ertson will address the electors of Saanich.

NORTH VICTORIA.

NORTH VICTORIA. To THE EDITOR: --In reading over the re-pret of the political meeting held at Sidney on Thursday last I was much amuted at the tactics pursued by the Opposition candidate Captain Robertson, in trying to gain the votes of the people, but regretted the im-pertinent nature of a few of his remarks. I understand the same tactics were pursued by him at two of the meetings around the Pars, though without any success, leaving only a fooling of disgust among the audi-ence as a reminiscence. In my opinion a candidate seeking parliamentary honors, who tries to make capital out of his oppor-ent's private affairs is a man to be avoided, to be shumed, and is not a fit and proper person to k gislate in the interests of the poole, and a man that makes base asser-tions and fails in substantiating them is nothing but a "windbag." One can readily understand an individual that fears neither God, man nor devil, and he is to be piticd, but whilst sympathizing with him on that seore, it should be clearly pointed out that in this enlightened age the services of a man of this stamp can be advantageously dis-pensed with. Throughout this campaign Mr. Booth, the Government candidate, has shown himself to be a gentleman, polito in his way, mild in his expressions and far uperior in judgment and common sense to that of his opponent. He has in the past proved himself worthy of the confidence placed in him by his constituents, having always advocated the interests of the elaotors of North Victoria may show them-eslaves by returning him at the add of the colors of North Victoria may show them-eslaves by returning man that. **NANALIO.**

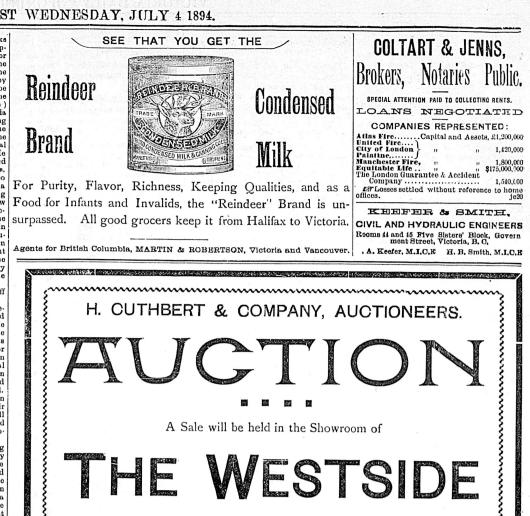

Continued from page One. The surveys were not all in one part of the country; the surveys were made not for the British Pacific but for the settlers. That British Pacific but for the settlers. That British Pacific was a sore subject with the opposition, who were carrying round a letter about the railway with something about Chinese in it. That letter had not been entertained by the gov-erement, so there was nothing in that. Still the opposition pretend that the gov-eranment had really agreed to it. He had been told that Mr. Beaven had been pitching into his figures while he was away. It was really only a reiteration of what Mr. Beaven had before eaid, that the over expenditure was in six years \$2,000,000. It was in that period three-quarters of a million less than Mr. Beaven's remarks on the gublic ac-country. Mr. Turner then dealt with Mr. Beaven's remarks on the public ac-counts. Mr. Beaven had made his own special report with the object of deceiving the house. He had only taken the true. Mr. Beaven did not tell them that the largest part of the ervenue, in a fact three-quarters of it, came in only in the last half

TORIA DAILY COLUNIS' ment or one too timid to undertake works for far of risking their portfolios. (Ap-plause) To Mr. Turnor was due thanks for rhis trip to the Mainland and showing the people there we over here were not the solish creatures we were depicted to be by our enemies. Every action that can be taken to dispell the sectional attitude of the ooposition should be done. (Applause) We were all interested in Britah Columbia no matter whether it was in developing Mainland or Island. If honored by the suffages of the electors of Victoria he would do all he could to dispell any sectional feeling that may exist. (Applause.) He wanted to see the country settled up by agood, thrifty class of farmers. It was a mistake in people flocking too much to the city. He would rather be a farmer on a small income than working for someone else. (Applause.) They knew he was an advocate for rallway construc-tion. He had taken an interest in the British Pacific. He was to a certain amount tied up, and did not think it pru-dent to say anything as it might not turn out as he hoped at present it might, but they could take his word for it that he would do all he could to forward that or any other enterprise having the good of the country as a foundation. (Applause.) A Voice-Will you take the head tux off Chinamen ? He was glad to hear that question, be-cause he wanted to confirm what he had said at Spring Ridge the other night. true. Mr. Beaven did not tell them that the largest part of the revenue, in fact three-quarters of it, came in only in the last half of the year. During the first half of the ficel year, too, the expenditure is heaviest. Mr. Beaven, if he had not intended to de-ceive, should have showed that on January, there was in the banks \$350,000 to cover the over-expenditure in the first half of the year, and that there was \$724,000 more revenue to come in, while only \$482,000 had to be met in the hast half year. (Great applause) As to Dr. Davie, it was true he got \$5000, but he was not too well paid. (Applause) He (Mr. Turner) had ad-vised Mr. Baven to take active measures to put down the smallpox. Finally when the people rose in revolt against his shameful neglect it was urged on the government by the medical men to appoint Dr. Davie as health officer. Did they know who was the first to object to Dr. Davie's appointment? It was Theodore Davie, and he (Mr. Turner) had to ask him to sink personal feeling and allow his brother to be placed in the position. D. Davie imself did not want to take it, as it injured his private practice. However, the govern-ment did stay the plague. (Applause) It was a mean, contemptible thing to say Dr. Davie was overpaid; he was not. As to Col. Baker's trip home the \$1,000 was only for the time he was working for the Pro-vince. As to the estimates, Mr. Baven said the estimates are always wrong. Taking the years 1890-3, the estimated revenue was under what had been received it was true, but that was not a very serious thing, and did not hurt the provinc. (Applause) It was easy to see how it arcse. One year the attention of Hon. Mr. Rebson was called to the fact that land was high around Vancouver and though the gov-ernment had not calculated to sell it, they i did, and got a very large price for it. The result was they got \$100,000 more than the suffering from the floods, but to have weit-did here to keep within his estimates he would bave considered he had robbed the government of unds had been absent from the city for some time before and after that letter was written, knew nothing about it, nor did he see it till it was published in the newspapers. Turning to educational matters, he was in favor of the non-sectarian epstem at present in existence, and hoped to see its present usefulness extended. (Great applause.) Ho would only say in oonclusion if they honored him with their votes and he was returned he would do all the could in the interests of Victoria and the province generally. (Prolonged ap-plause.) Mr. H. Dallas Helmekon had a rousing reception, and in opening said he was highly flattered at the warm manner in which he had been received. He was fully in accord with Mr. Rithet's words in regard to the railway policy of the country. When he taw the enthusiasm of Victoria West electors together with the fact that already four government members had been returned by acelamation, it argued well for the elections. (Applause.) He supported the same policy as enunciated by Mr. Turner and Mr. Rithet, and as to his views on other matters he would puble-fore them what he had already spoken about at other meetings. He referred briefly to his boing in favor of the compensation of workmen hurt in another's employ without having to go to expensive legal proceedings. It might look strange that as a lawyer he would want to take away part of the profits from himself, but he would tell them that he was of a family who thought more of the good they could do in a profession than the would want to take away part of the profits from himself, but he would tell them that he was of a family who thought more of the good they could do in a prof.ssion than the profit they would make out of it. (Cheering and applause.) Then he believed in only giving the landlord protection to a certain extent and not letting him have an unfair advantage over other creditors of a tenant. As to the Lien act brought into the house by the somewhat celebrated Mr. Brown' it was at present pretty well unworkable. As regards that act he (Vir. Helmoken), if elect-ed, would make it his first duty to put the act into proper shape. He would include loggers and all other workmen and make the law so plain that a workman would not have to employ a solicitor to tell him what it meant. The workmen would then get a chance to come out at the right end, too. (Applause.) Then in regard to the employes' three months wages claim, there were cases whero the employes were out beneficed and the act should be extended to apply so that no one should be done out of their just wage. He favored a change in the municipal act so as to equalize more properly the assees-ment on property, and thought the matter

should be done out of their just Wago. He favored a change in the municipal act so as to equalizo more properly the assess-ment on property, and thought the matter should come up in the house so as to get a proper system of assessment. He would again take the occasion to ask them to vote for the whole ticket and advise them to work as if every single vote was needed to win the election. It did not do to relax ef-fort as the day of election approached. The orly party that had taken the whole and not part of the province into its considera-tion was the one that now reigned supreme (applause). Referring to the laborbill, which acted with such happy results the other day, he said that the government wished to legislate so as to bring into closer com-munion the employer and employed, the rich and the poor. He hoped they would come and hear them speak in the Victoria theatro on Friday night, and he felt sure that notwithstanding the sneers of the oppo-sition they would see the government re-turned. Mr. Helmeken was very heartily applaud-Over. draft at .Bank \$ 10,000 25,000 101,113

NANAIMO.

NANAIMO, July 3 -The adjourned hearing in the police court of the charge against Sidney Wentworth Lobb of the murder of his wife on the night of the 8th June last was wife on the night of the 8th June last was continued yesterday afternoon. The evi-dence talten was that of the two experts, Messrs. Yourg, of the Hamilton Powder Works, and Tisdal, gunsmith, of Vancouver. Their testimony was to the effect that the marks of burning on Mrs. Lobb's irresing gown, must have been caused by the firing of the revolver at a distance of not leas than 13½ inches and not greater than 15. The experts had made tests with the rowlver found at Mrs. Lobb's side at the time of her death, and it was in accordance therewith that they based their evidence. The hear-ing was again adjourned for one week.
